

# FERTILISER TECHNOLOGY

**Western Fertiliser Technology Pty Ltd invites expressions of interest from Australian fertiliser manufacturers or farmers to purchase the company's fertiliser business established in Western Australia since 1991.**

The company has an extensive portfolio of modern manufactured products in the rapidly expanding field of liquid fertilisers such as NPK and trace element products, Blend-Tech Systems of manufacture and products tailored for the Grain Analysis System; all cutting-edge technologies introduced for Australian farmers and Australian agriculture by the company.

**For more details on part-acquisition as a choice of 6 advanced-technology turn-key packages contact the Managing Director on 0412 912 793, email [wft\\_ptyltd@bigpond.com](mailto:wft_ptyltd@bigpond.com), or visit their website on [www.wftptyltd.com.au](http://www.wftptyltd.com.au)**
